

Dear members and guests,

JCI Copenhagen International invites you to our next monthly meeting:

Conquer the Scene and conquer JCICI!

16 September 2010, Restaurant Belis Bar

This month we have the pleasure of inviting you to an exciting **training**, which will teach and train us in how to present and get a message across. JCI trainer **Maria Stoffer** will be guiding us through "Conquer the Scene", a training with focus on feeling comfortable as a speaker, and getting your message through. During the training you will gain an understanding of what happens to most of us when we stand up in front of a crowd. How does the body react and what can you do to limit your nerves. And when you get there - how do you make people listen to and remember your message. Maria will lead us through an interactive training using a combination of her own experiences, theory and exercises.

At the meeting we will also determine who will be leading our chapter next year. September is the month for our annual **elections**, where we vote who will be Local President and board members the following year. Details have been sent in a separate mail. All members of the chapter have a vote, so try to be at this meeting! 😊
